

# Experiment No. 9

Student Name: Swapnil Gaurkar

PRN: 25070521504

## Experiment Title

Demonstrate LocalStorage and SessionStorage in JavaScript by saving, applying, and clearing a theme preference.

## Software / Tools Required

- Visual Studio Code
- Google Chrome / Microsoft Edge
- HTML5
- CSS3
- JavaScript

## Experiment Program Code

Files Used: index.html, style.css, script.js

# index.html

```
<!DOCTYPE html>
<html>
<head>
  <title>LocalStorage and SessionStorage</title>
  <style>
    body {
      font-family: Arial;
      text-align: center;
      padding: 50px;
      transition: 0.3s;
    }

    .dark {
      background-color: #222;
      color: white;
    }

    button {
      padding: 10px 20px;
      margin: 10px;
      cursor: pointer;
    }
  </style>
</head>
<body>
  <h1>Theme Preference</h1>

  <button onclick="setTheme('light')">Light Theme</button>
  <button onclick="setTheme('dark')">Dark Theme</button>
  <button onclick="clearTheme()">Clear Preference</button>

  <p id="message"></p>

  <script>
    window.onload = function () {
      let savedTheme = localStorage.getItem("theme");

      if (savedTheme) {
        setTheme(savedTheme);
      }
    };

    function setTheme(theme) {
      if (theme === "dark") {
        document.body.classList.add("dark");
      } else {
        document.body.classList.remove("dark");
      }

      localStorage.setItem("theme", theme);
      sessionStorage.setItem("currentTheme", theme);

      document.getElementById("message").innerText = "Theme saved: " + theme;
    }

    function clearTheme() {
      localStorage.removeItem("theme");
      sessionStorage.removeItem("currentTheme");

      document.body.classList.remove("dark");

      document.getElementById("message").innerText = "Theme preference cleared.";
    }
  </script>
</body>
</html>
```

## style.css

```
body {  
  font-family: Arial;  
  text-align: center;  
  padding: 50px;  
  transition: 0.3s;  
}  
  
.dark {  
  background-color: #222;  
  color: white;  
}  
  
button {  
  padding: 10px 20px;  
  margin: 10px;  
  cursor: pointer;  
}
```

## script.js

```
window.onload = function () {
    let savedTheme = localStorage.getItem("theme");

    if (savedTheme) {
        setTheme(savedTheme);
    }
};

function setTheme(theme) {
    if (theme === "dark") {
        document.body.classList.add("dark");
    } else {
        document.body.classList.remove("dark");
    }

    localStorage.setItem("theme", theme);
    sessionStorage.setItem("currentTheme", theme);

    document.getElementById("message").innerText = "Theme saved: " + theme;
}

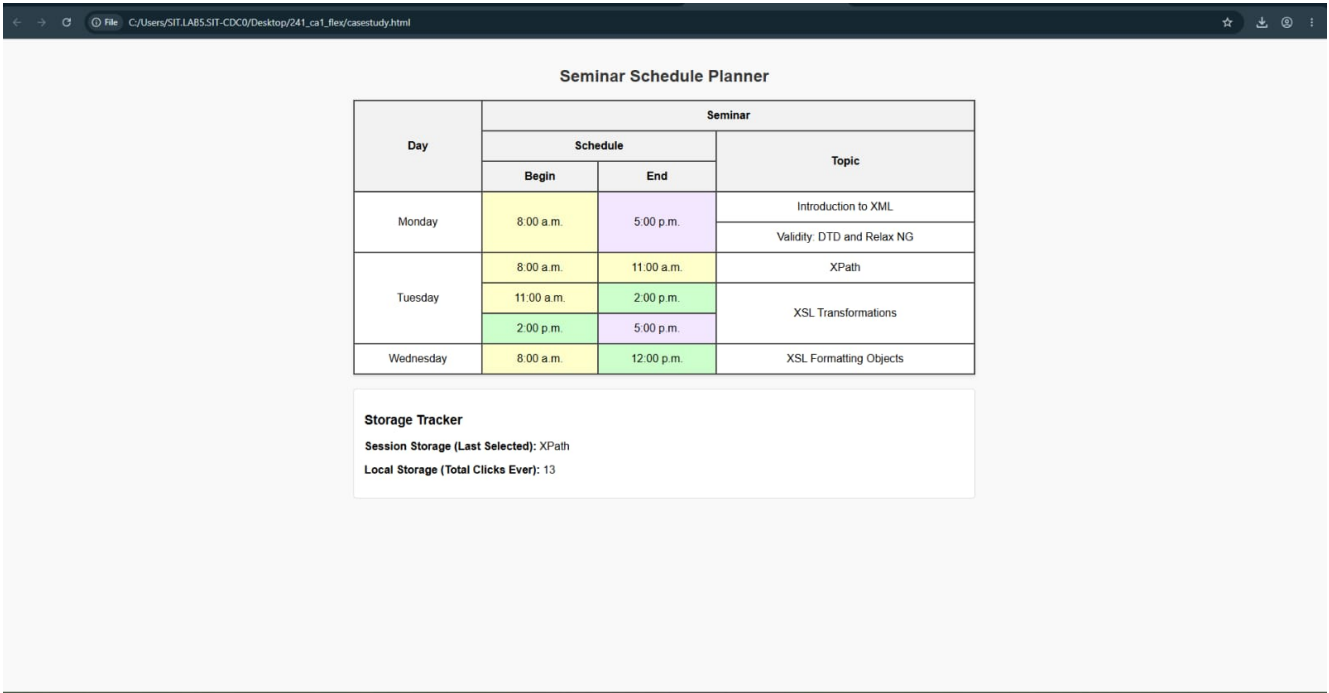

function clearTheme() {
    localStorage.removeItem("theme");
    sessionStorage.removeItem("currentTheme");

    document.body.classList.remove("dark");

    document.getElementById("message").innerText = "Theme preference cleared.";
}
```

# Output Screenshots

The supplied screenshots show the Seminar Schedule Planner and the Theme Preference page with the saved light theme.

## Result

The LocalStorage and SessionStorage demonstration was implemented successfully. The selected theme is stored in localStorage, the current theme is stored in sessionStorage, and the Clear Preference button removes both stored values.
